Where there is a Will there is a Way

Is there always a way? "Where there is a Will there is a Way" is a famous English proverb. It means: if somebody wants to do something, they will always find how.

I myself relate to this proverb so much. I find it real, and it always helps me to work harder. In my opinion you must strive not only for good results but also for knowledge and joy in ~~the~~ process of getting it. If you put all your efforts, there ~~are~~ usually a lot of opportunities to come.

If you really want to aspire ~~to~~ something and you have courage, of course, it can take some time, but at the end you will have much more than you used to before. Every ordeal always has its end, and you won't struggle for long. Intimidation and tiredness ~~are~~ notwithstanding, never give up and back down from your ~~work~~. The future is bright, and you can make it even better with your own will. People come and go, seasons change, but something that should never cease is your will.

Your life is in your hands.
